NARRATIVE. This EXORD provides guidance and commander's intent to subordinate commanders in order to (IOT) execute combined force operations in the USPACOM area of operations (AOR) in support of (ISO) Operation PACIFIC SHIELD, including decentralized control of operations through conditions-based delegation of authorities in response to enemy disruption of connectivity.

1. SITUATION.

1.A. General.

1.A.1. Tensions between the People's Republic of China (PRC) and the US over the reunification of Taiwan have reached a critical point. Taiwan's newly elected President Lian Mei-Hua expressed a desire for closer ties with the US, igniting the PRC's concerns about Taiwan formally declaring independence. Diplomatic efforts to defuse the situation have been ineffective as both sides have taken hardline stances.

1.A.2. The US has increased arms sales to Taiwan, while the PRC has increased the frequency of military drills near the Taiwan Strait. International pressure to maintain peaceful relations has been immense, but underlying distrust between the involved parties persists. The situation further escalated when the PRC announced a series of economic sanctions against American companies

EXERCISE - OTS USE ONLY

involved in arms sales to Taiwan. In response, the US conducted combined joint military exercises with Japan, South Korea, and Taiwan, showcasing that the US is committed to deterring any unilateral changes to the status quo in the Taiwan Strait.

1.A.3. US and PRC naval vessels had a close encounter in the South China Sea during a US freedom of navigation (FON) demonstration. Both sides issued verbal warnings, but ultimately peacefully disengaged.

1.A.4. The US and the PRC are currently engaged in diplomatic discussions about the status of Taiwan with an emphasis on the need for a peaceful resolution to the crisis. President Xi Jinping has emphasized the importance of peaceful reunification with Taiwan but continues to refuse to renounce the PRC's right to use force over Taiwan. US intelligence analysts assess that there is a high probability of the PRC attempting to reunify with Taiwan through the use of military force within the next six months. In order to enhance deterrence and prepare for conflict, the US Secretary of War (SecWar) is ordering the execution of Operation PACIFIC SHIELD to increase force posture and proactively disperse forces within the US Indo-Pacific Command (USPACOM).

1.B. Political Assessment

1.B.1. **US Relations with Taiwan.** Taiwan is a key US partner in the Indo-Pacific region. Though the US does not have official diplomatic relations with Taiwan, it has a robust unofficial relationship through the American Institute in Taiwan (AIT), a non-profit, private corporation authorized by the Taiwan Relations Act. The US has a longstanding One China Policy, which is guided by the Taiwan Relations Act, the Three US-China Joint Communiques, and the Six Assurances. The US opposes any unilateral changes to the status quo from either side; the US does not support Taiwan's independence; and the US expects cross-strait differences to be resolved by peaceful means.

1.B.2. **Access, Basing, and Overflight (ABO) Rights.**
1.B.2.A. Indonesia: Pending. US Department of State (DoS) will provide a daily update to Combined Joint Task Force Commander (CJTFC).
1.B.2.B. Brunei: Pending. DoS will provide a daily update to CJTFC.
1.B.2.C. India: Pending. DoS will provide a daily update to CJTFC.
1.B.2.D. Malaysia: Pending. DoS will provide a daily update to CJTFC.
1.B.2.E. Philippines: Full access, basing, and overflight rights. DoS does not anticipate any changes to this status.
1.B.2.F. Singapore: Pending. DoS will provide a daily update to CJTFC.
1.B.2.G. Thailand: Full access, basing, and overflight rights. DoS does not anticipate any changes to this status.
1.B.2.H. Laos: Pending. DoS will provide a daily update to CJTFC.
1.B.2.I. Vietnam: Pending. DoS will provide a daily update to CJTFC.
1.B.2.J. South Korea: Full access, basing, and overflight rights. DoS does not anticipate any changes to this status.
1.B.2.K. Japan: Full access, basing, and overflight rights. DoS does not anticipate any changes to this status.

1.C. Policy Goals.

1.C.1. Protect the homeland.

EXERCISE ONLY USE ONLY

1.C.2. Align US efforts with its network of allies and partners, acting with common purpose and in common cause toward deterrence and maintaining peace in the Indo-Pacific region.

1.C.3. Prevent any unilateral changes to the status quo in the Taiwan Strait and promote a peaceful resolution to cross-strait differences.

1.C.4. Ensure US and the free world nations retain access to the global commons.

1.D. End State. The US and its network of allies and partners uphold peace and prosperity in the Indo-Pacific region, prevent any unilateral changes to the One China Policy, maintain international access to air and sea lines of communication in the Indo-Pacific region, secure the US homeland from kinetic and non-kinetic attack, and de-escalate the threat of nuclear weapons use.

1.E. Operational Limitations. Kinetic and non-kinetic attacks on People's Liberation Army (PLA) forces are prohibited unless combat operations are authorized by the President of the United States (POTUS). Military assets conducting deterrence operations in international waters/airspace are authorized to use lethal force in self-defense in the event efforts for de-escalation and disengagement have failed.

1.F. Deterrent Options.

1.F.1. **Diplomatic.** DoS will exercise the power of international institutions such as the United Nations (UN) to pressure PRC to maintain peaceful relations in the Taiwan Strait.

1.F.2. **Information.** CJTF Agile Dragon will conduct a targeted information campaign to discourage any unilateral attempts to change the status quo for relations in the Taiwan Strait and persuade the Chinese population that an armed invasion of Taiwan will be extremely costly, and potentially destructive, to the PRC and their way of life. Information operations will be targeted to deter CCP leadership from aggressive action.

1.F.3. **Military.** SecWar has authorized show-of-force and freedom-of-navigation operations in international waters and airspace. US forces will not penetrate PRC territorial waters or airspace under any circumstances.

CJTF Agile Dragon will conduct proactive force dispersal operations and increase force projection capabilities in the Indo-Pacific region to demonstrate preparedness for high-intensity conflict.

CJTF Agile Dragon will conduct defensive combat air patrols in the western Pacific, northern Philippines, South Korea, Japan, and critical sea and air lines of communication in Southeast Asia.

Chairman of the Joints Chief of Staff (CJCS) has directed an increase in USPACOM force posture.

1.F.4. **Economic.** US Department of Treasury will determine an appropriate counter to PRC sanctions and make recommendations to POTUS for action. US Department of Energy (DoE) will analyze PRC energy importation requirements and make recommendations to POTUS for targeted interference via diplomatic, economic, or military channels that will degrade the PRC's ability to sustain high-intensity conflict.

EXERCISE - OTS USE ONLY

1.G. Enemy.

1.G.1. **Force Composition.** See ANNEX B.

1.G.2. **Center of Gravity (COG) Analysis.**
1.G.2.A. Strategic COG
1.G.2.A.1. Chinese Communist Party (CCP) leadership.
1.G.2.B. Operational COG
1.G.2.B.1. PLA Fielded Forces.
1.G.2.B.1.A. Critical Capabilities. (1) Project combat power. (2) Deny access. (3) Control sea lines of communication and key island chains.
1.G.2.B.2. Information and Propaganda Infrastructure
1.G.2.B.2.A. Critical Capabilities. (1) Provide and protect space, intelligence, surveillance, and reconnaissance (ISR), and network communication architecture. (2) Conduct information operations, electromagnetic warfare (EW), cyber operations, and psychological operations. (3) Maintain information superiority.

1.G.3. **Strategic Objectives.**
1.G.3.A. Ensure the survival and prosperity of the Chinese Communist Party (CCP).
1.G.3.B. Enhance national security.
1.G.3.C. Expand global influence.
1.G.3.D. Achieve the great rejuvenation of the Chinese nation, including reunification with Taiwan.

1.G.4. **Courses of Action.**
1.G.4.A. **Most Likely.** The PRC will continue to leverage diplomatic, informational, military, and economic power to achieve peaceful reunification with Taiwan and avoid provoking conflict with the US.

1.G.4.B. **Most Dangerous.** The PRC conducts a rapid cross-strait invasion to forcefully reunify with Taiwan, restore Chinese hegemony in the Indo-Pacific region, and present the US with a fait accompli.
1.G.4.B.1. Phase I: Shape.
1.G.4.B.1.A. PLA forces deploy to reinforce Eastern and Southern Theater Command.
1.G.4.B.1.B. PLA conducts an information campaign targeted at ROC military and civilian personnel intended to minimize resistance to a military takeover of Taiwan.
1.G.4.B.1.C. PLA conducts pre-assault fires on Quemoy and Penghu Islands.

1.G.4.B.2. Phase II: Isolate.
1.G.4.B.2.A. PLA establishes air and maritime superiority in the Taiwan Strait, East China Sea and South China Sea.
1.G.4.B.2.B. PLA forces seize Quemoy.
1.G.4.B.2.C. US and coalition command and control are degraded by cyber attacks.

1.G.4.B.3. Phase III: Dominate.
1.G.4.B.3.A. PLA forces conduct amphibious assault on Taiwan and establish a northern lodgment IVO Taoyuan and a southern lodgment IVO Tainan.

EXERCISE - OTS USE ONLY

1.G.4.B.4. PLARF launches precision strikes on US and coalition main operating bases and naval assets within the first and second island chain IOT degrade CJTF Agile Dragon's ability to quickly respond to the crisis. PLA forces seize the Penghu Islands.
1.G.4.B.5. PLA forces will secure air and maritime superiority IVO Taiwan to prevent US forces from interfering with the invasion.
1.G.4.B.6. PLA seizes landing zones on the northern and eastern coastlines of Taiwan, preventing an amphibious landing of US forces on Taiwan.
1.G.4.B.7. Phase IV: Consolidate and Reorganize.
1.G.4.B.7.A. Taiwanese Armed Forces are destroyed.
1.G.4.B.7.B. Coalition Forces are destroyed or expelled from Taiwan.
1.G.4.B.7.C. Taiwanese government is removed.
1.G.4.B.7.D. PRC establishes civil control over Taiwan.

1.H. Friendly.

1.H.1. **Force Composition.** See ANNEX A.

1.H.2. **Basing.**
1.H.2.A. Combined Joint Air Force forces will project power from main operating bases Yokota AB, Kadena AB, Andersen AFB, JB Pearl Harbor-Hickam, and/or Osan AB.

1.H.2.B. Combined Forces Space Component Commander (CFSCC) will be in a supporting role to CFACC from the Combined Space Operations Center (CSpOC) in Vandenberg Space Force Base, CA.

1.H.2.C. Contingency locations will be determined by air expeditionary wing (AEW) commanders with an emphasis on force survival and mission generation. See paragraph 1.B. for regional military-political assessment.

1.H.3. **COG Analysis.**
1.H.3.A. Strategic COG.
1.H.3.A.1. Commitment of allies and partners.
1.H.3.A.1.A. Critical Capabilities. (1) Combined forces combat power capabilities, basing access and overflight rights.

1.H.3.B. Operational COG.
1.H.3.B.1. CJTF Agile Dragon Fielded Forces.
1.H.3.B.1.A. Critical Capabilities. (1) Deny PLA access to Taiwan. (2) Maintain freedom of navigation within the global commons.

1.H.4. **Strategic Objectives.**
1.H.4.A. Protect the homeland.
1.H.4.B. Maintain a peaceful and stable Indo-Pacific region.
1.H.4.C. Ensure US and the free world nations retain access to the global commons.

1.H.5. CDRUSPACOM is the supported commander.

1.I. Joint Operating Area (JOA).

EXERCISE - OTS USE ONLY

1.I.1. The JOA is defined as the USPACOM AOR.

1.J. Risk.

1.J.1. **Risk to Force.**
1.J.1.A. Contingency locations in the Indo-Pacific region lack sufficient prepositioned supplies for sustained combat operations. Assessed Significant Risk.
1.J.1.B. Nuclear escalation. Assessed Moderate Risk.

1.J.2. **Risk to Mission.**
1.J.2.A. Main operating bases are within range of PRC ballistic missile attack. Ballistic missile attacks are capable of reducing airfield operating capabilities. Assessed High Risk.
1.J.2.B. Horizontal escalation beyond the JOA (i.e. Democratic People's Republic of Korea). Assessed Moderate Risk.
1.J.2.C. Nuclear escalation. Assessed Moderate Risk.
1.J.2.D. Loss of access to strategic maritime chokepoints. Assessed Moderate Risk.

1.J.3. **Acceptable Level of Risk (ALR).**
1.J.3.A. Crisis
1.J.3.A.1. Combat Air Forces (CAF). Moderate.
1.J.3.A.2. Mobility Air Forces (MAF). Moderate.
1.J.3.A.3. High-Value Airborne Asset (HVAA). Low.
1.J.3.A.4. Spec Ops. Moderate.

2. MISSION

2.A. Mission Statement. CJTF Agile Dragon is directed to conduct Operation PACIFIC SHIELD Phase 1 IOT deter the PRC from invading Taiwan with conventional forces, protect Taiwan's sovereignty, and preserve stability in the Indo-Pacific region. If deterrence fails, CJTF Agile Dragon will be prepared to neutralize PLA forces IVO Taiwan, defeat PRC attempts to seize the western Pacific global commons, and enable humanitarian assistance by government and non-governmental organizations IOT prevent the loss of Taiwan to the PRC, ensure the US and free world nations retain access to the global commons in the western Pacific, and mitigate a humanitarian crisis in Southeast Asia. CSpOC is directed to support Operation PACIFIC SHIELD to meet JFC intent and objectives, while protecting American and allied interests in space and proving space capabilities to the joint forces across all combatant commands (CCMDs). MEDCOM is directed to support Operation PACIFIC SHIELD by establishing and running hospitals in the AOR to conduct triage, pick-up and track patient movement and recovery.

3. EXECUTION

3.A. Commander's Intent – Operation PACIFIC SHIELD

3.A.1. The purpose of Operation PACIFIC SHIELD is to preserve Taiwanese sovereignty, deter the PRC from military aggression, and maintain the status quo relations in the Taiwan Strait. If necessary, CJTF Agile Dragon will defeat PRC attempts to deny access to the western Pacific global

EXERCISE - OTS USE ONLY

commons, neutralize PLA forces IVO Taiwan, and enable humanitarian assistance in the Indo-Pacific region by government and non-governmental organizations.

3.A.2. As tensions rise in the JOA, CJTF Agile Dragon will seek to deter PRC aggression, particularly towards Taiwan. As such, we will conduct an effective information operations (IO) campaign to garner support of the international community, demonstrate the coalition's strength in the JOA, deter CCP leadership from aggressive action, and continue to increase the Taiwan military's capability and capacity to successfully defeat any PRC attempt of invasion. If deterrence fails, we will rapidly transition to combat operations. We will seek to neutralize PLA forces IVO Taiwan, retain access to the global commons in the western Pacific, and enable the inevitable humanitarian assistance efforts in the wake of decisive conflict.

3.A.3. Neutralizing PLA forces IVO Taiwan will require Joint All-Domain Operations (JADO) to overcome the PLA's overmatch in several domains within the first island chain. Retaining access to the JOA's global commons necessitates control of key chokepoints in the South China Sea (SCS), East China Sea (ECS), and the Philippine Sea. Enabling humanitarian assistance operations in the JOA requires the prepositioning of supplies, movement of and coordination with DoS/NGOs, and secure locations.

3.A.4. IOT prepare for decisive conflict with the PRC, CJTF Agile Dragon will set the theater for combat operations, including proactive dispersal of forces to increase force survivability and complicate the enemy's targeting while maintaining the capability to integrate and mass effects against the enemy. AEW/CC's will establish adaptive cluster operations, using agile combat employment (ACE) concepts, to position and prepare the CJTF for escalating hostilities within USPACOM. We must eliminate single points of failure in our power projection capabilities and fight from positions of advantage. CJTF Agile Dragon will deter the PRC from executing a military takeover of Taiwan until a peaceful resolution of Taiwan's status can be negotiated.

3.A.5. CJTF Agile Dragon will provide force protection for US military installations within the USPACOM AOR and freedom of navigation in critical air and sea lines of communication in Southeast Asia.

3.B. Military End State. At the conclusion of Operation PACIFIC SHIELD, the combined force will have deterred PRC aggression in the Taiwan Strait, enabled continued diplomatic efforts toward a peaceful resolution, and upheld a free and open Indo-Pacific by maintaining freedom of navigation across critical air lines of communication (ALOC) and sea lines of communication (SLOC). Additionally, the force will be postured to execute base cluster operations IAW ACE concepts.

3.C. Objectives.

3.C.1. **CJTF Agile Dragon.**
3.C.1.A. Ensure an open, interconnected, prosperous, secure, and resilient Indo-Pacific region.
3.C.1.B. Contribute to the Indo-Pacific region's peace and stability by maintaining a consistent defense presence, reaffirming Indo-Pacific treaty allies, and deterring PRC aggression in the Indo-Pacific region.
3.C.1.C. Prevent any unilateral changes to Taiwan Strait relations status quo.
3.C.1.D. If deterrence fails, neutralize PRC forces IVO Taiwan.
3.C.1.E. Enable humanitarian assistance by government and non-governmental organizations.

EXERCISE - OTS USE ONLY

3.D. Execution.

3.D.1. **Phase 1. Deterrence.**

3.D.1.A. **Commander's Intent – Phase 1**
3.D.1.A.1. Phase 1 is characterized by staging the theater, deterrence, and proactive dispersal of forces throughout the JOA. The main effort is the dispersal of forces and the logistical buildup of forward operating sites (FOS) to support fighter operations.
3.D.1.A.2. The shaping effort for this phase will be to occupy the Ryukyu Islands, reconnoiter tenable landing beaches on the East Coast of Taiwan, occupy Taiwan's maritime approaches, establish defensive CAPs IVO western Pacific region, IVO northern Philippines, IVO Strait of Malacca, and IVO Japan and South Korea, secure seaports of debarkation (SPOD) and aerial port of debarkation (APOD) in the JOA, and control SLOC and ALOC in the central Pacific.

3.D.1.A.3. The supporting effort will consist of ISR, transportation, and logistics in the JOA.

3.D.1.B. **Objectives.**

3.D.1.B.1. **CJTF Agile Dragon**
3.D.1.B.1.A. Ensure an open, interconnected, prosperous, secure, and resilient Indo-Pacific region (HEX# 602, 703, 704, 705, 804).
3.D.1.B.1.B. Contribute to the Indo-Pacific region's peace and stability by maintaining a consistent defense presence, reaffirming Indo-Pacific treaty allies, and deterring PRC aggression in the Indo-Pacific region (HEX# 108, 207, 307, 308, 407, 506, 507, 605, 606, 607).
3.D.1.B.1.C. Prevent any unilateral changes to Taiwan Strait relations status quo.

3.D.1.B.2. **Combined Forces Maritime Component Commander (CFMCC)**
3.D.1.B.2.A. Control sea lines of communication in the Central Pacific.
3.D.1.B.2.B. Conduct movement of forces within the JOA.
3.D.1.B.2.C. Strengthen ROC defenses and posture within Taiwan.
3.D.1.B.2.D. Control Taiwan maritime approaches.

3.D.1.B.3. **Combined Forces Air Component Commander (CFACC)**
3.D.1.B.3.A. Support Combined Force Maritime Component Commander (CFMCC) operations to maintain a free and open Indo-Pacific region. Specifically, CFMCC will secure critical SLOC in portions of the Bay of Bengal, southern portion of the South China Sea, and the Strait of Malacca (HEX# 602, 703, 704, 705, 804).
3.D.1.B.3.B. Protect US main operating bases in the Indo-Pacific region. Specifically, prioritize the protection of US main operating bases in Japan, Korea, and forward operating sites in the Philippines (HEX# 108, 207, 307, 308, 407, 506, 507, 605, 606, 607).
3.D.1.B.3.C. Ensure freedom of maneuver (FOM) through critical ALOC throughout Southeast Asia (HEX# 602, 703, 704, 705, 804).
3.D.1.B.3.D. Deter PRC from the forceful reunification of Taiwan by military action.
3.D.1.B.3.E. Conduct ISR operations in western Pacific region (HEX# 308, 407, 508, 607, 708).
3.D.1.B.3.F. Establish robust and resilient communications plan with HAF and AEW.

EXERCISE - OTS USE ONLY

3.D.1.B.4. **Combined Forces Space Component Commander (CFSCC)**
3.D.1.B.4.A. Support CFACC operations in the JOA. Specifically, CFSCC will support CFACC objectives to secure critical ALOC & SLOC in portions of the Bay of Bengal, southern portion of the South China Sea, and the Strait of Malacca (HEX # 602, 703, 704, 705, 804).
3.D.1.B.4.B. Protect US main operating bases in the Indo-Pacific region. Specifically, prioritize the protection of US main operating bases in Japan, Korea, and forward operating sites in the Philippines (HEX# 108, 207, 307, 308, 407, 506, 507, 605, 606, 607).
3.D.1.B.4.C. Support CFACC in the deterrence of PRC from the forceful reunification of Taiwan.
3.D.1.B.4.D. Support ISR operations in western Pacific region (HEX #308, 407, 508, 607, 708).
3.D.1.B.4.E. Establish robust and resilient communications plan with USPACOM, CJTF-Agile Dragon HQ, and AEW/CCs.

3.D.1.B.5. **CFLCC**
3.D.1.B.5.A. Secure seaports of debarkation and airports of debarkation in the JOA.

3.D.1.B.6. **CJSOCC**
3.D.1.B.6.A. Conduct information operations campaign.
3.D.1.B.6.B. Strengthen ROC defenses and posture within Taiwan.

3.D.1.C. **Tasks.**

3.D.1.C.1. **Andersen AB, Guam.**
3.D.1.C.1.A. Disperse combined forces from main operating bases IOT increase combined force survivability and complicate the enemy's targeting.
3.D.1.C.1.B. Build contingency location capacity to enable the launch and recovery of fighter aircraft ISO CFACC objectives.
3.D.1.C.1.C. Conduct defensive counter air operations IOT protect US main operating bases in the Philippines (HEX# 506, 507, 605, 606, 607).

3.D.1.C.2. **Yokota AB, Japan.**
3.D.1.C.2.A. Disperse combined forces from main operating bases IOT increase combined force survivability and complicate the enemy's targeting.
3.D.1.C.2.B. Build contingency location capacity to enable the launch and recovery of fighter aircraft ISO CFACC objectives.
3.D.1.C.2.C. Conduct defensive counter air operations IOT protect coalition assets conducting ISR in the western Pacific region (HEX# 308, 407, 508, 607, 708).

3.D.1.C.3. **Kadena AB, Japan.**
3.D.1.C.3.A. Disperse combined forces from main operating bases IOT increase combined force survivability and complicate the enemy's targeting.
3.D.1.C.3.B. Build contingency location capacity to enable the launch and recovery of fighter aircraft ISO CFACC objectives.
3.D.1.C.3.C. Support CFMCC operations to secure critical SLOCs in portions of the Bay of Bengal, southern portion of the South China Sea, and the Strait of Malacca (HEX# 602, 703, 704, 705, 804).

EXERCISE - OTS USE ONLY

3.D.1.C.4. **JB Pearl-Harbor Hickam, HI – OR – Osan AB.**
3.D.1.C.4.A. Disperse combined forces from main operating bases IOT increase combined force survivability and complicate the enemy's targeting.
3.D.1.C.4.B. Build contingency location capacity to enable the launch and recovery of fighter aircraft ISO CFACC objectives.
3.D.1.C.4.C. Conduct defensive counter air operations IOT protect US main operating bases in Japan and Korea (HEX# 108, 207, 307, 308, 407).

3.D.1.E. **Fires.** No scheme of fires will occur during this phase. CJTF Agile Dragon/J2 will construct Joint Integrated Prioritized Target List (JIPTL) for use in the event of escalating hostilities.

4. ADMINISTRATION AND LOGISTICS

4.A. Concept of Sustainment

4.A.1. Main Operating Bases will receive resupply via military sealift and airlift. AEW/CC will be responsible for coordinating, planning, and executing resupply of FOSs with allocated assets.

4.B. Aircraft Allocation

4.B.1. USTRANSCOM will determine aircraft apportionment of C-17, C-5, and C-130 to USPACOM at the beginning of each air tasking order (ATO) cycle.
4.B.1.A. USTRANSCOM will forecast aircraft apportionment for the next ATO cycle and is required to meet forecasted aircraft plus/minus three.

4.B.2. CJTF Agile Dragon CFACC will determine aircraft allocation to AEW IAW logistical requirements and CJTFC's priorities.

4.B.3. When able, USTRANSCOM will apportion C-5s dedicated to the execution of inter-theater strategic airlift IOT sustain combat power projection capabilities from MOBs in the JOA.

4.C. Logistics. AEW/CC will coordinate logistics requirements with CFACC. CFACC will allocate mobility airlift IAW MOB requirements and CJTFC's priorities.
4.C.1. Military sealift will provide limited logistical support for the sustainment of expendable commodities (i.e. fuel, food, water, and munitions) at MOBs within the JOA.

4.D. Personnel. When possible, AEW/CC should employ multi-capable airman (MCA) concepts to make the most efficient use of available manpower and reduce risk to force.

5. COMMAND AND CONTROL

5.A. Supported & Supporting Relationships. CDRUSPACOM is the supported commander for Operation PACIFIC SHIELD. Component and supporting commanders and directors of supporting DoD agencies will provide trained and equipped forces (as directed by SecWar), infrastructure, and force protection, as required, to support CJTFC's mission objectives.

5.A.1. Command Relationships (COMREL). See ANNEX J.

EXERCISE - OTS USE ONLY

5.B. CJTF Agile Dragon Tiered Command and Control Structure for Department of the Air Force forces.

5.B.1. **Tier 1. CJTF Agile Dragon Combined Air Operations Center (CAOC)**
5.B.1.A. Supporting Air Operations Centers (AOC)
5.B.1.A.1. USTRANSCOM AOC: Scott AFB, IL
5.B.1.A.2. USPACOM AOC: JB Pearl-Harbor Hickam, HI.

5.B.2. **Tier 1. Combined Space Operations Center (CSpOC)**
5.B.2.A. Supporting Space Operations Center (CSpOC)
5.B.2.B. USPACOM CSpOC: Vandenberg Space Force Base, CA.

5.B.3. **Tier 1. Air Force Medical Command (MEDCOM)**
5.B.3.B. USPACOM MEDCOM: JB Pearl-Harbor Hickam, HI.

5.B.4. **Tier 2. Main Operating Base Expeditionary Wing Operations Center (WOC).**
5.B.4.A. WOC Gator: Kadena AB, Japan.
5.B.4.B. WOC Bulldog: Andersen AB, Guam.
5.B.4.C. WOC Volunteer: JB Pearl-Harbor Hickam, HI.
5.B.4.D. WOC Tiger: Yokota AB, Japan.

5.B.5. **Tier 3. Forward Operating Site Tactical Operations Center (TOC).**

5.C. Component Commanders.

5.C.1. **Combined Forces Air Component Commander (CFACC).**
5.C.1.A. CJTF Agile Dragon CFACC maintains tactical control (TACON) of fighter and mobility airlift assets assigned to or transiting USPACOM AOR through the CAOC. CFACC will allocate aircraft based on the needs of AEW/CCs and CJTFC objectives. USPACOM JFACC retains TACON of airborne C2, ISR, bombers, air refueling, and combat search and rescue (CSAR).
5.C.1.B. USTRANSCOM maintains operational control (OPCON) of mobility airlift assets (C-130, C-17, and C-5). Assets not previously assigned to USPACOM will not change operational control (CHOP) due to USTRANSCOM's enduring obligation to support global combatant commanders.

5.C.2. **Combined Forces Space Component Commander (CFSCC).**
5.C.2.A. CJTF Agile Dragon CFSCC maintains tactical control (TACON) of USSF satellites available for use by USSPACECOM in the USPACOM AOR through SpOC West at Vandenberg Space Force Base.

5.C.3. **Air Force Medical Command Commander (MEDCOM CC)**
5.C.3.A. CJTF Agile Dragon MEDCOM CC maintains TACON of MEDCOM resources and hospitals available for use in the USPACOM AOR through MEDCOM HQ, Joint Base Pearl Harbor-Hickam, HI.

5.D. Communication Plan.

5.D.1. **HAF to HQ USPACOM/HQ CJTF Agile Dragon**
5.D.1.A. Primary: SATCOM broadband (secure)

EXERCISE: OTS USE ONLY

5.D.1.B. Alternate: VHF-FM voice (secure)
5.D.1.C. Contingency: SATCOM voice (secure)
5.D.1.D. Emergency: HF voice

5.D.2. **CJTF Agile Dragon CAOC to AEW/CC and MEDCOM**
5.D.2.A. Primary: Voice Comm (Non-Secure)
5.D.2.B. Alternate: CJTF Agile Dragon TEAMS Private Chat (Non-Secure)
5.D.2.C. Contingency: OPS Execution Spreadsheet
5.D.2.D. Emergency: None

5.D.3. **CJTF Agile Dragon CAOC to CSpOC**
5.D.3.A. Primary: Voice Comm (Non-Secure)
5.D.3.B. Alternate: CJTF Agile Dragon TEAMS VTC (Non-Secure)
5.D.3.C. Contingency: CJTF Agile Dragon TEAMS Private Chat (Non-Secure)
5.D.3.D. Emergency: SATCOM Iridium

5.E. C4I Disruption and Loss of Connectivity.

5.E.1. Tactical Airmen and subordinate commanders must be prepared to operate under conditions where control has been decentralized and authorities delegated from HQ CTJF Agile Dragon. Component commanders will clearly communicate commander's intent to ensure continuity of operations during periods of degraded communications. Decentralized control will result in the following authorities being delegated to subordinate commanders: planning, directing, coordinating, and executing airlift and strike operations within the USPACOM AOR until communications are reestablished with higher node.
5.E.1.A. Any subordinate node (SN) that experiences C4I disruption and/or loss of connectivity will continue operations IAW this OPORD and CJTFC's intent.

5.E.2. The primary delegated command authority to the SN will be TACON.
5.E.2.A. If the Tier 1 node is isolated from SN, then Tier 2 nodes assume TACON over forces intra-base cluster mobility airlift and fires assets assigned to the base cluster. Tier 2 nodes will continue operations IAW the last received CFACC intent to achieve CJTFC's objectives.

5.E.2.B. Tier 2 nodes will not assume TACON over mobility assets executing inter-base cluster airlift operations. The Tier 2 node assumes TACON over fragged intra-theatre airlift operations only.

5.E.2.C. If the Tier 2 node is isolated from SN, then the Tier 3 nodes assume TACON over forces assigned to their node. Tier 3 nodes will direct mobility airlift assets to the nearest Tier 2 node for tasking.

6. Additional Instructions. Unauthorized compromise or distribution of this information can lead to removal from Officer Training School and UCMJ actions. AEW/CCs and CFACC will brief instructors NLT one hour after the initiation of planning on their plan for the first move.

ANNEX A
TASK ORGANIZATION

1. Units Assigned to USPACOM.

1.A. US ARMY
1.A.1. **I Corps**
1.A.1.A. 7th Infantry Division

1.A.1.B. 25th Infantry Division
1.A.1.C. US Army Japan
1.A.1.D. 593rd Expeditionary Sustainment Command

1.A.2. **94th Army & Mission Defense Command**

1.A.3. **8th Theater Sustainment Command**
1.A.3.A. 8th Military Police Brigade
1.A.3.B. 130th Engineer Brigade

1.A.4. **311th Signal Command**

1.A.5. **500th Military Intelligence Brigade**

1.B. US NAVY
1.B.1. **US 3rd Fleet** 1.B.1.A. Carrier Strike Group One
1.B.1.B. Carrier Strike Group Three
1.B.1.C. Carrier Strike Group Nine
1.B.1.D. Carrier Strike Group Eleven
1.B.1.E. Carrier Strike Group Fifteen
1.B.1.F. Expeditionary Strike Group Three
1.B.1.G. Naval Surface Group Mid-Pacific
1.B.1.H. Littoral Combat Ship Squadron One
1.B.1.I. Helicopter Maritime Strike Wing
1.B.1.J. Mine Countermeasures Group Three
1.B.1.K. Explosive Ordnance Disposal Group One
1.B.1.L. Coastal Riverine Group One
1.B.1.M. Navy Air & Missile Defense Command
1.B.1.N. Naval Mine & Anti-Submarine Warfare Command
1.B.1.O. Submarine & Theater Anti-Submarine Warfare Force Third Fleet

1.B.2. **US 7th Fleet**
1.B.2.A. Task Force 70
1.B.2.A.1. Surface Combatant Force
1.B.2.A.2. Carrier Strike Group Five
1.B.2.B. Task Force 71
1.B.2.B.1. Naval Special Warfare
1.B.2.C. Task Force 72
1.B.2.C.1. Patrol & Reconnaissance Force
1.B.2.D. Task Force 73
1.B.2.D.1. Logistics Group Western Pacific
1.B.2.E. Task Force 74
1.B.2.E.1. Fleet Submarine Force
1.B.2.F. Task Force 75
1.B.2.G. Task Force 76
1.B.2.G.1. Amphibious Assault Task Force
1.B.2.G.2. Task Force 77
1.B.2.G.2.A. Mine Warfare Force

EXERCISE - OTS USE ONLY

1.B.3. **Naval Air Force Pacific**

1.B.4. **Naval Surface Force Pacific**

1.B.5. **US Naval Forces Japan**

1.B.6. **US Naval Forces Korea**

1.C. US AIR FORCE

1.C.1. **Kadena AB Cluster**
1.C.1.A. 18th Wing
1.C.1.A.1. Fighter Assets Available: 16x F-16

1.C.2. **Andersen AB Cluster**
1.C.2.A. 3rd Wing (Deployed from JB Elmendorf-Richardson)
1.C.2.A.1. Fighter Assets Available: 16x F-22
1.C.2.B. 36th Wing 1.C.2.B.1. 36th Operations Group
1.C.2.B.2. 36th Maintenance Group
1.C.2.B.3. 36th Contingency Response Group
1.C.2.B.4. 36th Medical Group
1.C.2.B.5. 36th Mission Support Group
1.C.2.B.6. Det 1, 69th Reconnaissance Group
1.C.2.B.7. Det 602, AFOSI
1.C.2.B.8. 734th Air Mobility Squadron

1.C.3. **JB Pearl-Harbor Hickam Base – OR – Osan AB Cluster**
1.C.3.A. 15th Wing 1.C.3.A.1. 15th Operations Group
1.C.3.A.1.A. Fighter Assets Available: 16x F-22
1.C.3.A.2. 15th Maintenance Group
1.C.3.A.3. 15th Medical Group
1.C.3.A.4. 647th Air Base Group

1.C.4. **Yokota AB Base Cluster**
1.C.4.A. 35th Fighter Wing (Deployed from Misawa AB)
1.C.4.A.1. Fighter Assets Available: 16x F-16
1.C.4.B. 374th Airlift Wing

1.C.5. **US MARINE CORPS**
1.C.5.A. I Marine Expeditionary Force
1.C.5.A.1. 1st Marine Division
1.C.5.A.2. 3rd Marine Aircraft Wing
1.C.5.A.3. 1st Marine Logistics Group
1.C.5.B. Marine Rotational Force – Darwin

1.C.6. **US SPACE FORCE**

EXERCISE - OTS USE ONLY

1.C.6.A. SPOC West – CFSCC – Vandenberg SFB
1.C.6.B. Space Delta 1

1.D. JOINT FORCES
1.D.1. **Special Operations Command Pacific**

2. Allied Forces Apportioned to CJTF Agile Dragon

2.A. AUSTRALIA
2.A.1. Royal Australian Army
2.A.1.A. 1x Infantry Division
2.A.2. Royal Australian Navy 2.A.2.A. 3x Surface Action Groups
2.A.2.B. 1x Amphibious Readiness Group with Marine Expeditionary Unit
2.A.2.C. 6x SSN
2.A.3. Royal Australian Air Force 2.A.3.A. 1x EA-18G Squadron
2.A.3.B. 1x E-7A Squadron
2.A.3.C. 1x P-8A Squadrons
2.A.3.D. 2x F-35 Squadrons
2.A.3.E. 1x F/A-18F Squadron

2.B. JAPAN
2.B.1. Ground Self-Defense Force
2.B.1.A. 1x Airborne Brigade
2.B.1.B. 1x Amphibious Rapid Deployment Brigade
2.B.2. Maritime Self-Defense Force
2.B.2.A. 2x Light Carrier Strike Groups
2.B.2.B. 2x Helicopter Carrier Groups
2.B.2.C. 2x Surface Action Groups
2.B.2.D. 4x Mine Countermeasure Groups
2.B.2.E. 1x Mine Countermeasure Squadron
2.B.3. Air Self-Defense Force 2.B.3.A. 1x F-35 Squadron
2.B.3.B. 6x F-15J Squadrons
2.B.3.C. 3x F-2 Squadrons
2.B.3.D. 1x E-767 Squadron
2.B.3.E. 1x E-2 Squadron
2.B.3.F. 1x Tanker Squadron (KC-46)
2.B.3.G. 1x RQ-4

COMMAND RELATIONSHIPS

ANNEX M
ACRONYM LIST

A2AD – Anti-Access/Area Denial
AB – Air Base
ABO – Access, Basing and Overflight
ACE – Agile Combat Employment
AEW – Air Expeditionary Wing
ALOC – Air Line of Communication
ALR – Allowable Level of Risk
AOR – Area of Operations
ATO – Air Tasking Order
C2 – Command and Control
C4I – Command, Control, Communications, Computers, and Intelligence
CAF – Combat Air Forces
CAOC – Combined Air Operations Center
CCMD – Combatant Command
CCP – Chinese Communist Party
CDRUSPACOM – Commander, US Indo-Pacific Command
CFACC – Combined Forces Air Component Commander
CFLCC – Combined Forces Land Component Commander
CFMCC – Combined Forces Maritime Component Commander
CFSCC – Combined Forces Space Component Commander
CSpOC – Combined Space Operations Center
CHOP – Change of Operational Control
CJTF – Combined Joint Task Force
CJTFC – Combined Joint Task Force Commander
COMREL – Command Relationships
CSAR – Combat Search and Rescue
CSOCC – Combined Special Operations Component Commander
DoS – Department of State
ECS – East China Sea
EXORD – Execution Order
HAF – Headquarters Air Force
HF – High Frequency Radio
HQ – Headquarters
HVAA – High-Value Airborne Asset
IAW – In Accordance With
IO – Information Operations
IOT – In Order To
ISO – In Support Of
ISR – Intelligence, Surveillance, and Reconnaissance
IVO – In Vicinity Of
JADO – Joint All-Domain Operations
JB – Joint Base
JIPTL – Joint Integrated Prioritized Target List
JOA – Joint Operating Area
MAF – Mobility Air Forces

EXERCISE - OTS USE ONLY

MCA – Multi-Capable Airman
MEDCOM – Air Force Medical Command
MOB – Main Operating Base
NGO – Non-Governmental Organization
OPCON – Operational Control
PLA – People's Liberation Army
PLAA – People's Liberation Army Ground Force
PLAAF - People's Liberation Army Air Force
PLAN - People's Liberation Army Navy
PLARF - People's Liberation Army Rocket Force
POTUS – President of the United States
PRC – People's Republic of China
SATCOM – Satellite Communication
SCS – South China Sea
SECWAR – Secretary of War
SLOC – Sea Line of Communication
SN – Subordinate Node
TACON – Tactical Control
USA – US Army
USAF – US Air Force
USARPAC – US Army Pacific
USPACOM – US Indo-Pacific Command
USMARPAC – US Marine Corps Pacific
USMC – US Marine Corps
USN – US Navy
USPACFLT – US Pacific Fleet
USTRANSCOM – US Transportation Command
WOC – Wing Operations Center
